**REPORT ON COMPLIANCE AND OTHER MATTERS AND ON INTERNAL
CONTROLS OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING
STANDARDS**

We have audited the financial statements of the governmental funds and each major fund of the Los Angeles County Regional Park and Open Space District (the "District") as of and for the year ended June 30, 2006, and have issued our report thereon dated November 16, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the State Controller's Minimum Audit Requirements for California Special Districts.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provision of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an object of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no material instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the basic financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Board of Supervisors and management of the District and the Los Angeles County Auditor-Controller's office and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of the governmental activities and each major fund of the Los Angeles County Regional Park and Open Space District (the "District"), a component unit of the County of Los Angeles, as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the management of the District. Our responsibility is to express opinions on these financial statements based on our audit. The prior year summarized comparative financial information has been derived from the District's 2005 financial statements which were audited by Conrad and Associates, L.L.P., who merged with Mayer Hoffman McCann P.C. as of January 1, 2006, and whose report dated November 21, 2005 expressed unqualified opinions on the respective financial statements of the governmental activities and each major fund.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of June 30, 2006, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America and State regulations governing special districts.

The information identified in the accompanying table of contents as *Management's Discussion and Analysis* and *Required Supplementary Information* are not a required part of the basic financial statements but are supplementary information required by accounting standards generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2006 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

LOS ANGELES COUNTY REGIONAL PARK AND OPEN SPACE DISTRICT

Management's Discussion and Analysis For the Year Ended June 30, 2006

Management's discussion and analysis of the Los Angeles County Regional Park and Open Space District (the District) provides a narrative overview of the District's financial activities for the fiscal year ended June 30, 2006. Please read it in conjunction with the accompanying financial statements, footnotes, and supplementary information.

Financial Highlights

- As more fully explained in the government-wide financial analysis below and in footnote 10 to the financial statements, net assets were negative \$19 million at June 30, 2006.
- During the current year, the District's net assets increased by \$28 million.
- The District's General Fund fund balance increased to \$246 million.
- The District reduced its outstanding debt during fiscal year 2005 by \$23.4 million.

Financial Statement Overview

This annual report consists of a series of financial statements: 1) government-wide financial statements, 2) fund based financial statements, and 3) notes to the financial statements. In addition to the financial statements, this report contains required supplementary information and additional supplementary schedules.

Government-wide financial statements: The government-wide financial statements are designed to provide a broad overview of the District's activities and present a longer-term view of the District's finances.

- The Statement of Net Assets presents all of the District's assets and liabilities, with the difference reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator to determine whether the financial position of the District is improving or deteriorating.

LOS ANGELES COUNTY REGIONAL PARK AND OPEN SPACE DISTRICT
Management's Discussion and Analysis
(Continued)

The Statement of Activities presents information showing how the District's net assets changed during the fiscal year. All changes in net assets (revenues and expenses) are reported when the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Accordingly, revenues and expenses are reported in this statement for items that will result in cash flows in future fiscal periods (e.g. uncollected assessment revenues, and accrued but unpaid interest expenses).

The government-wide financial statements can be found on pages 9-10 of this report.

Fund based financial statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All funds of the District are Governmental fund types.

- Governmental Funds - All of the District's activities are reported in governmental funds. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed view of the District's operations. Governmental fund information helps to determine the amounts of financial resources used to finance the District's programs.

Net asset/net equity differences between the government-wide and fund based statements are highlighted on page 12 and are primarily the result of the inclusion of bonds payable, unamortized bond premium and refunding charges, accrued interest on bonds payable, and deferred revenue in the government-wide liabilities.

The difference between the changes in net assets/fund balances on the government-wide versus fund based statements is highlighted on page 14 and is primarily the result of reporting the repayment of bond principal as an expenditure in the fund based statements.

Notes to the Financial Statements: The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund based financial statements.

Government-wide Financial Analysis

Our government-wide analysis focuses on the net assets (Table 1) and changes in net assets (Table 2) for the District's governmental activities.

GASB Statement 34 requires that the government-wide statements reflect a liability for the \$332.1 million in outstanding bonds issued to finance grants made to other governmental agencies, but does not permit the recognition of assets for future assessment revenues that are pledged for the annual debt service payments on the bonds. Amounts distributed to the cities and other eligible entities are recorded as expenses by the District and no capital assets are recorded. As a result, the Statement of Net Assets shows negative net assets of approximately \$19 million. The bond covenants require the County to levy property taxes in future years to specifically repay the principal and interest on the bonds. Accordingly, the deficit related to these bonds is expected to be funded by the dedicated tax levy and the deficit will gradually diminish as the bonds are redeemed.

Total assets of the District increased by 2.5% from the prior year to \$326 million due to a \$10 million increase in pooled cash and investments, a \$0.5 million increase in interest receivable, and a \$2.3 million decrease in assessments receivable.

LOS ANGELES COUNTY REGIONAL PARK AND OPEN SPACE DISTRICT
Management's Discussion and Analysis
(Continued)

Total liabilities of the District decreased by 5.4% from the prior year to \$345.4 million due to a \$23.4 million decrease in long-term liabilities (bonds payable) and a \$3.8 million increase in project related expenditure accruals and interest payable.

Total net assets increased \$27.8 million to negative \$19.2 million due to an excess of general revenues (\$90.7 million in assessment revenue and investment income) over government expenses (\$62.9 million in grants to other agencies, bond interest expense, maintenance and administration).

Investment income increased by \$5.2 million in 2006 due to higher investment yields. The District spent \$2.9 million less on park improvements and maintenance in 2006 but interest expense on bonds increased by \$2.6 million.

Management's Discussion and Analysis

Fund Based Financial Analysis

As of the end of the current fiscal year, the District's governmental funds reported combined fund balances of \$312.3 million, an increase of \$5 million from the prior year. Current year revenues from the governmental funds were \$90.7 million, an increase of 5.8% from the previous year. Expenditures in the current year were \$62.9 million, a decrease of 4.6% from the previous year.

Debt Management

At June 30, 2006, the District had Bonds Payable of \$332,116,816, the proceeds of which are being used to fund various park improvement projects and a debt service reserve fund. The debt service payments are secured by the District's annual benefit assessment to each assessable parcel as approved by the voters in 1992 and 1996. The District reduced its outstanding debt by \$23.4 million during fiscal year 2006.

Budgets

No material adjustments were made to either the District's original General Fund budget or the District's original Debt Service Fund budget.

In the District's General Fund, the budgeted expenditures included encumbrances of \$91.7 million reflecting the District's obligations to fund future park improvements. These future expenditures will be funded with additional debt proceeds or assessment revenues. During fiscal year 2006, the District spent much less than the amount budgeted for park grants, projects, and maintenance. No new bonds were issued during the fiscal year.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. Notes to the Basic Financial Statements

Year Ended June 30, 2006

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies of the Los Angeles County Regional Park and Open Space District (the "District"):

(a) History and Organization

General

Proposition A was passed by the voters on November 3, 1992, which provided for the formation of the assessment district "Regional Park and Open Space District" (the "District"). The District was formed and the assessments levied pursuant to Sections 5538.9 and 5539.9 of the California Public Resources Code. The objectives of the District are to improve the quality of life in the County of Los Angeles through the preservation of beaches, parks, and wild lands; the construction, renovation and improvement of new and existing recreational facilities; and the restoration of rivers, streams, and trails. These powers are exercised through the County of Los Angeles (the "County") Board of Supervisors, which acts as the governing body of the District. Among its duties, it approves the District's budget, determines the District's assessment rates, approves contracts, and determines when to issue bonds authorized by the voters of the District. On November 5, 1996, the voters approved the Safe Neighborhood Parks Proposition, which provided for the District to levy additional assessments and to amend the method of assessments within the District.

Reporting Entity

The District is a component financial reporting unit of the County of Los Angeles, as the governing board of the County also serves as the District's governing board, and the County is financially accountable for the District.

The District is included as a component unit in the County financial reporting entity and is included in the County's comprehensive annual financial report for the year ended June 30, 2006.

LOS ANGELES COUNTY REGIONAL PARK AND OPEN SPACE DISTRICT

Notes to the Basic Financial Statements

(Continued)

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)

(a) History and Organization, (Continued)

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth by generally accepted accounting principles ("GAAP"). The District does not have any components units.

(b) Basis of Accounting and Measurement Focus

The *basic financial statements* of the District are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

Financial reporting is based upon all GASB pronouncements, as well as the FASB Bulletins that were issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements. FASB pronouncements issued after November 30, 1989 are not followed in the preparation of the accompanying financial statements.

Government-wide Financial Statements

Government-wide financial statements display information about the District as a whole. These statements include separate columns for the government and business-type activities of the primary government. The District does not have business-type activities. Eliminations have been made in the Statement of Activities so that certain allocated expenses are recorded only once (by the function to which they are allocated). However, general government expenses have not been allocated as indirect expenses to the various functions of the District.

Government-wide financial statements are presented using the *economic resources measurement focus* and the *accrual basis of accounting*. Under the economic resources measurement focus, all (both current and long-term) economic resources and obligations of the reporting government are reported in the government-wide financial statements. *Basis of accounting* refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33.

Program revenues include charges for services and payments made by parties outside of the reporting District's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the Statement of Activities to present the net cost of each program. The District did not have any program revenues for the year then ended.

(b) Basis of Accounting and Measurement Focus, (Continued)

Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as an other financing source. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

Fund Financial Statements

The underlying accounting system of the District is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually and non-major funds in the aggregate for governmental funds. The District has no non-major funds.

Governmental Fund Types

In the fund financial statements, governmental funds are presented using the *modified-accrual basis of accounting*. Their revenues are recognized when they become *measurable* and *available* as net current assets. *Measurable* means that the amounts can be estimated, or otherwise determined. *Available* means that amounts were collected during the reporting period or soon enough thereafter to be available to finance the expenditures accrued for the reporting period. For this purpose, the District uses an availability period of 60 days for assessment revenues and 1 year for investment income.

Assessments and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period to the extent normally collected within the availability period. Other revenue items are considered to be measurable and available when cash is received by the district.

Exchange transactions are recognized as revenues in the period in which they are earned (i.e., the related goods or services are provided). *Locally imposed tax revenues* are recognized as revenues in the period in which the underlying exchange transaction upon which they are based takes place. *Imposed non-exchange transactions* are recognized as revenues in the period for which they are imposed. If the period of use is not specified, they are recognized as revenues when an enforceable legal claim to the revenues arises or when they are received, whichever occurs first. *Government-mandated and voluntary non-exchange transactions* are recognized as revenues when all applicable eligibility requirements have been met.

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)

(b) Basis of Accounting and Measurement Focus, (Continued)

In the fund financial statements, governmental funds are presented using the *current financial resources measurement focus*. This means that only current assets and current liabilities are generally included on their balance sheets. The reported fund balance (net current assets) is considered to be a measure of "available expendable resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available expendable resources" during a period.

Non-current portions of long-term receivables due to governmental funds are reported on their balance sheets in spite of their spending measurement focus. However, special reporting treatments are used to indicate that they should not be considered "available expendable resources" since they do not represent net current assets. Recognition of governmental fund type revenue represented by non-current receivables are deferred until they become current receivables.

Non-current portions of other long-term receivables are offset by fund balance reserve accounts.

As a result of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as government fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as *expenditures* in the year that resources were expended, rather than as fund assets. The proceeds of long-term debt are recorded as an *other financing source* rather than as a fund liability. Amounts paid to reduce long-term indebtedness are reported as fund expenditures.

(b) Basis of Accounting and Measurement Focus, (Continued)

When both restricted and unrestricted resources are combined in a fund, expenditures are considered to be paid first from restricted resources and then from unrestricted resources.

(c) Major Funds

The major funds of the District are as follows:

General Fund:

The General Fund is available for any authorized purpose and is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund:

The Debt Service Fund is used to account for accumulation of resources for, and the payment of principal and interest.

(d) Cash and Investments

Investments are reported in the accompanying financial statements at fair value, except for certain certificates of deposit and investment contracts that are reported at cost because they are not transferable and they have terms that are not affected by changes in market interest rates.

Changes in fair value that occur during a fiscal year are reported as *net change in fair value of investments*. *Investment income* includes interest earnings and any gains or losses realized upon the liquidation, maturity, or sale of investments.

(d) Cash and Investments, (Continued)

All cash and investment balances of the District are pooled and invested by the County Treasurer and are subject to withdrawal from the pool upon demand. Each fund's share in this pool is displayed in the accompanying financial statements as pooled *cash and investments*. Investment income earned by the pooled investments is allocated to the various funds based on fund's average cash and investment balance, as provided by California Government Code Section 53647.

(e) Capital Assets

The District provides funding to other entities, including the County, for purposes of acquiring real property. Title to properties acquired is recorded in the name of the purchasing entity, not the District. Accordingly, there are no capital assets recorded on the statement of net assets.

(f) Deferred Revenue

Deferred revenue in the fund financial statements represents receivables at year end that will not be collected soon enough to finance current year expenditures.

(g) Prior Year Data

The information included in the accompanying financial statements for the prior year has been presented for comparison purposes only and does not represent a complete presentation in accordance with generally accepted accounting principles.

2. RECONCILIATION OF OPERATIONS ON MODIFIED ACCRUAL BASIS TO BUDGETARY BASIS

In accordance with the provisions of Section 29000-29144 of the Government Code of the State of California (the "Government Code"), commonly known as the County Budget Act, a District budget is adopted on or before August 30 for each fiscal year. Budgets are adopted for the General Fund and Debt Service Fund on a basis of accounting, which is different from generally accepted accounting principles ("GAAP").

For budgetary purposes, encumbrances and other reserves are also recorded as other financing uses at the time they are established. For encumbrances, this occurs at the time contracts or other purchase agreements are entered into. Other reserves are also recognized as other financing uses to indicate that certain assets (such as inventories) are not available for appropriation. Cancellations of encumbrances and other fund balance reserves are recorded as other financing sources for budgetary purposes.

Under the budgetary basis, property tax revenues are recognized to the extent that they are collectible within one year after year-end. Under the modified accrual basis, property tax revenues are recognized only to the extent that they are collectible within 60 days.

For budgetary purposes, investment income is recognized prior to the effect of changes in the fair value of investments. Under the modified accrual basis, the effects of such fair value changes have been recognized.

Expenditures are controlled on the object level for all District budgets. Any excess of budgeted expenditures and other financing uses over revenue and other financing sources is financed by beginning available fund balance as provided for in the County Budget Act. There were no excesses of expenditures over the related appropriations within any fund at June 30, 2006.

2. RECONCILIATION OF OPERATIONS ON MODIFIED ACCRUAL BASIS TO BUDGETARY BASIS, (CONTINUED)

The District's Combined Statement of Revenues, Expenditures and Changes in Fund Balances – All Governmental Fund Types has been prepared on the modified accrual basis of accounting in accordance with GAAP. The Schedules of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual for the General and Debt Service Funds have been prepared on the budgetary basis, which is different from GAAP.

The following schedule is a reconciliation of the budgetary and GAAP excess (deficiency) of revenues over (under) expenditures as of June 30, 2006 (in Thousands):

3. BENEFITS ASSESSMENTS

The District's primary revenue source is the assessments which are levied annually on each of the approximately 2.2 million parcels within the District's boundaries. The District, as authorized by the Government Code, levied an assessment on each parcel of real property within the District. The rate and method of apportionment used in levying annual assessments for various categories of property is established in the Engineer's Report for County of Los Angeles Landscaping and Lighting District No. 92-1. The level of each assessment is based on the size and use of each parcel and the resulting benefit each parcel will receive from the proposed projects. The estimation of such benefit is quantified by benefit points, which is based on the 1996 Proposition.

The annual rate of each assessment may not exceed \$14.46 per benefit point. The annual assessment for any parcel will consequently equal the annual rate multiplied by the number of benefit points applicable to each parcel. The assessment may be levied annually for a period of 22 years.

The expenditures of the District that are funded from the proceeds of the annual assessments levied and collected are distributed as follows: a minimum of 80% (but not more than 85%) of the assessments are used for the payment of debt service on bonds, notes and other obligations issued by the District and for the direct capitalized costs incurred on approved projects; 15% of assessments are used of for maintenance and servicing of completed projects; and up to 5% of the assessment are used to pay for the District's ongoing administrative expenses.

4. TRANSACTIONS WITH THE COUNTY AND OTHER AGENCIES

The County is responsible for providing all necessary employees to the District for purposes of performing all District functions. Costs related to these employees are billed to the District based upon actual time spent providing District services. Accordingly, the District has no salaries and employee benefit expenditures or supplies inventory. Accrued expenditures in the amount of \$7,090,000 as of June 30, 2006, for services provided by the County and other agencies for reimbursable projects, have been recorded as "Due to Los Angeles County".

Equity in the Cash and Investment Pool of the County of Los Angeles

The District has no separate bank accounts or investments other than the District's equity in the Los Angeles County Treasury Pool. The District is a voluntary participant in that pool. This pool is governed by and under the regulatory oversight of the Los Angeles County Treasurer and Tax Collector.

The District has not adopted an investment policy separate from that of the County. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value calculated by the County for the entire County portfolio. The balance available for withdrawal is based on the accounting records maintained by the Los Angeles County Auditor Controller, which are recorded on an amortized cost basis.

Investments Authorized by Debt Agreements

Investment of debt proceeds is governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the County's investment policy. The table below identifies the investment types that are authorized. The table also identifies certain provisions of these debt agreements that address interest rate risk and concentration of credit risk.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the County of Los Angeles manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the District's exposure to interest rate risk as a result of its equity in the cash and investment pool of the County of Los Angeles is provided by disclosures in the notes to the basic financial statements of the County of Los Angeles that shows the distribution of the County's investments by maturity.

Information about the sensitivity of the fair values of the District's investments with the County to market interest rate fluctuations is provided by the following table that shows the distribution of these investments by maturity:

<u>Investment Type</u>	<u>Total</u>	<u>Remaining Maturity (in Months)</u>

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the County's investment policy, or debt agreements, and the actual rating as of year end for each investment type. The County investment policy establishes minimum acceptable credit ratings for investments from any two nationally recognized statistical rating organizations. These guidelines are summarized in the notes to the basic financial statements of the County of Los Angeles.

<u>Investment Type</u>	<u>Total</u>	Minimum	Exempt	<u>Rating as of Year End</u>	
		Legal	From	AAA	Not
		<u>Rating</u>	<u>Disclosure</u>		<u>Rated</u>
LA County Treasury Pool	<u>\$317,476,631</u>	None	-	-	<u>\$317,476,631</u>
Total	<u>\$317,476,631</u>		-	-	<u>\$317,476,631</u>

Concentration of Credit Risk

There are no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. All investments of the District are in an investment pool. Although the District has no limitations on the amount that can be invested in any one issuer beyond those stipulated by the California Government Code, all investments are in the Los Angeles County Treasury Pool which is subject to the County investment policy limitations on the amount of pooled funds that may be invested in any one issuer.

Custodial Credit Risk

The District does not have significant separate certificates of deposit or demand accounts with fiscal agent that are subject to disclosable custodial credit risk (as defined by GASB Statement No. 40). The District does not have direct investments in securities subject to disclosable custodial credit risk (as defined by GASB Statement No. 40).

1997 A Bond Issuance

On November 1, 1997, the District issued \$510,185,000 in Limited Obligation Improvement Bonds, Series 1997A, with interest rates ranging from 4.2% to 6.0%. The bonds were issued to advance refund the outstanding principal of the Series 1994A Bonds, and for acquisition, restoration, improvement, and preservation of beach, park, wildlife, and open space resources within the District. The bonds are payable from the proceeds of annual assessments levied on parcels within the district boundaries. Interest is payable April 1 and October 1 of each year. Final bonds mature in 2019. The outstanding balance as of June 30, 2006 is \$147,995,000. The District has established and maintained a reserve account in accordance with the bond indenture. The reserve account has a balance of \$17,721,922 as of June 30, 2006.

2005 A Bond Issuance

On January 20, 2005, the District issued \$181,220,000 in Revenue Refunding Bonds, Series 2005A, with interest rates ranging from 3.0% to 5.25%. The bonds were issued to advance refund \$188,175,000 of the outstanding principal of the Series 1997A Bonds. The net proceeds of the bonds plus a portion of the 1997 bond reserve were used to purchase state and local government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded portion of the 1997 bonds. As a result, that portion of the 1997 bonds are considered to be defeased and the liability for those bonds has been removed from the government-wide statement of net assets.

The 2005 bonds are payable from the proceeds of annual assessments levied on parcels within the district boundaries. Interest is payable April 1 and October 1 of each year. Final bonds mature in 2019. The outstanding balance as of June 30, 2006 is \$177,715,000.

The District has established and maintained a reserve account in accordance with the bond indenture. The reserve account has a balance of \$17,757,350 as of June 30, 2006. The funding in such amount provides a source of security that facilitated the marketing of the bonds at the interest rates provided thereon, was necessary for the District to obtain ratings from the rating agencies, was a vital factor in marketing the bonds, and is not in excess of the amount reasonably necessary for such purposes.

8. CONTINGENT LIABILITIES

Claims and suits have been filed against the District in the normal course of business. The outcome of these matters is not presently determinable. However, in the opinion of management, the resolution of these matters is not expected to have a significant impact of the financial condition of the District.

9. UNRESTRICTED NET ASSETS

GASB Statement No. 34 requires that local governments record in the statement of net assets the local government's liability for debt issued to finance the construction and acquisition of assets to be owned by other parties. GASB Statements No. 33 and 34 do not permit the recognition of assets for future tax increment revenues that are pledged for the annual retirement of bonded debt issuances. The negative equity resulting from the reporting of the District's liability for this debt is required by GASB No. 34 to be reported as unrestricted net assets.

1. BUDGETS AND BUDGETARY INFORMATION

In accordance with the provisions of Section 29000-29144 of the Government Code of the State of California (the "Government Code"), commonly known as the County Budget Act, a District budget is adopted on or before August 30 for each fiscal year. Budgets are adopted for the General Fund on a basis of accounting, which is different from generally accepted accounting principles ("GAAP").

For budgetary purposes, encumbrances and other reserves are also recorded as other financing uses at the time they are established. For encumbrances, this occurs at the time contracts or other purchase agreements are entered into. Other reserves are also recognized as other financing uses to indicate that certain assets (such as inventories) are not available for appropriation. Cancellations of encumbrances and other fund balance reserves are recorded as other financing sources for budgetary purposes.

Under the budgetary basis, property tax revenues are recognized to the extent that they are collectible within one year after year-end. Under the modified accrual basis, property tax revenues are recognized only to the extent that they are collectible within 60 days.

For budgetary purposes, investment income is recognized prior to the effect of changes in the fair value of investments. Under the modified accrual basis, the effects of such fair value changes have been recognized.

Expenditures are controlled on the object level for all District budgets. Any excess of budgeted expenditures and other financing uses over revenue and other financing sources is financed by beginning available fund balance as provided for in the County Budget Act. There were no excesses of expenditures over the related appropriations within any fund at June 30, 2006.
